

FINANCIAL AND COMMERCIAL.

SATURDAY, AUGUST 13.

Stocks again advanced in orderly fashion in the two-hour session today. In the last hour some of the early gains were diminished by realizing sales customary at the close of a week's business, but the tone was strong at the close and fractional net gains were scored in most of the active stocks.

The week witnessed an orderly upward movement in stocks and one that was well maintained that none of the reactions was at all great or significant.
